

## Capital Scholars Honors Program Advising Guide for Undecided Majors

Because of the first- and second-year prerequisites required for majors in the sciences and business fields, students considering majors in Mathematics, Computer Science, Biology, Chemistry or Clinical Laboratory Sciences, Business, Management, Economics or Accounting should follow advising guides for those fields. If you are considering majors in both business and scientific areas, you should follow the guidelines for the science major, which will maximize your options in later years. See your advisor if you need help.

CAP Honors students planning to spend a semester abroad should normally plan to be abroad during their junior year. See your history advisor no later than the first semester of your second year to begin planning how to complete the requirements for your major in conjunction with your semester abroad.

### Recommended Course Schedule

#### Year 1

Fall Semester	Hours	Spring Semester	Hours
