

Sviatoslav B. Braynov

Assistant Professor of Computer Science

University of Illinois, Springfield

UIS faculty aspire to be teacher-scholars, and Dr. Sviatoslav Braynov is an example with the outstanding scholarship he has created and had published, noteworthy in terms of the creativity and challenge of the research, the breadth of the work covering both computer and business areas, and for the recognized excellence in terms of the journals in which he has published.

Dr. Braynov has, in a short period of time, created a large body of work in an important, demanding and fast changing field. He has received recognition nationally and internationally for his work as attested by his publications, his conference presentations, and the citations in the literature to his work.

Through his work he has made important contributions in the area of computer security which is of crucial importance to our nation and the world. Through his research he has brought recognition to our university through the creativity, originality, and excellence of his scholarship.

We hope that the designation as University Scholar will both reward Dr. Braynov's accomplishments thus far, and will facilitate even greater accomplishments in his future endeavors at UIS.
