Faculty Scholarship Recognition Luncheon
2013
FACULTY SCHOLARSHIP RECOGNITION
LUNCHEON PROGRAM

Welcome. . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . Lynn Pardie
Vice Chancellor for Academic Affairs & Provost

Opening Remarks . . . . . . . . . . . . . . . . . . . . . . . . . . . . Susan J. Koch
Chancellor, University of Illinois Springfield

University Scholars Award Presentation . . . . . . . . . Christophe Pierre
Vice President for Academic Affairs, University of Illinois

Presentation by University Scholar . . . . . . . . . . . . . . . . . Hua Chen
Associate Professor of Biology
2013 University Scholar

University Scholar Pen Presentation . . . . . . . . . . . . . . . . . Lan Dong
Associate Professor of English
2012 University Scholar

Reflections on Scholarship. . . . . . . . . . . . . . . . . . . . . Michael Lemke
Professor of Biology
2002 University Scholar

Adjournment

Hua Chen
Associate Professor, Biology

Dr. Chen is a wonderful example of the teacher-scholar ideal. His research focuses on ecosystem ecology, restoration ecology, and global change ecology, and he has published extensively in a number of highly regarded journals in his field. His scholarly agenda involves two lines of investigation, both of which have important implications for the dynamics of climate change — assessing the impact of global changes in land-use and in climate on the carbon and nitrogen dynamics of restored wetlands and forest ecosystems, and exploring the relationships between native and invasive plant biodiversity within different spatial and temporal contexts. He has received numerous competitive grants in support of his research from the National Science Foundation, the United States Department of Agriculture, and the Department of Energy’s National Institute for Climate Change Research, among others.

Dr. Chen's philosophy of scholarship emphasizes the importance of a reciprocal relationship between active research and teaching quality, and the value of research experience for students’ learning and pre-professional development. He teaches at all levels of the biology curriculum, both on campus and online, and he is an active mentor of student research at undergraduate and graduate levels. His skills in research pedagogy are very highly regarded by colleagues. Under his guidance, students have presented their work at academic conferences and/or co-authored articles published in peer-reviewed journals in their field.

In addition to meaningful service contributions at the department, college, and campus levels, Dr. Chen is actively engaged with his discipline. He serves as an editorial board member for several academic journals, and he is a proposal reviewers for the National Natural Science Foundation of China. He was a founding member of the Midwest-Great Lakes chapter of the Society for Ecological Restoration and is a member of the Therkildsen Field Station Advisory Board.
Dear Colleagues:

It is my pleasure to present this listing of scholarly achievements by the faculty of the University of Illinois Springfield, and I hope you will take a few moments to review the entire compilation. It represents academic publications and presentations delivered in state, regional, national, and international venues during the 2012 calendar year, and it’s an impressive array. Taken as a whole, the annual listing is also a tangible reflection of our abiding commitment to a true teacher-scholar model, in which scholarship and teaching are realized as mutually enlivening and enriching activities.

As you know, we traditionally limit entries in the annual listing to peer-reviewed publications and presentations, which are the time-honored, public forms of faculty scholarship. Nevertheless, we also know that faculty members engage in many other scholarly activities that contribute to new knowledge and to the development of their academic disciplines and professional fields. The value of these activities, including but not limited to manuscript review and selection, serving on editorial boards, and organizing conference panels, should never be underestimated. Such engagement is also a well-recognized mark of the teacher-scholar.

The teacher-scholar model is, indeed, alive here at UIS, and in the spirit of celebrating excellence in scholarship, I extend sincere congratulations on all of your scholarly accomplishments in 2012, and best wishes for your continuing success.

Lynn Pardie
Vice Chancellor for Academic Affairs and Provost

Robert Wright
