Candidate Statement:

I am deeply interested in campus affairs because I am interested in how UIS serves all of its stakeholders. I believe in shared governance and the value of faculty authority in academic affairs. I wish to seek a second term in the Campus Senate because my first term confirmed my belief in the importance of the Campus Senate to a well functioning UIS. I also currently have the pleasure of serving as Vice Chair and would like to continue serving the university in that function as well. I have learned a great deal in the past two years both about the importance of faculty leadership in-and-of itself and with regards to working with the administration as we all work to make UIS a better place to work and live. I continually strive to find the right balance here and encourage the input of all stakeholders in this process.
