FACULTY SENATE RESOLUTION 25-7

A RESOLUTION ON THE DPC INTERIM REPORT

Be It Resolved that the UIS Interim Campus Senate endorse the DPC Interim Report.

The Senate calls the committee's attention to three issues of ongoing concern:

- The elimination of the applied statistics concentration in mathematics
- The suspension of the bachelors in economics
- The proposal concerning Public Administration

The Campus Senate reaffirms that, as appropriate, actions stemming from these recommendations will be discussed and acted on through our established governance process.
