

UNIVERSITY OF ILLINOIS AT SPRINGFIELD  
College of Liberal Arts & Sciences

*“When it comes to online education  
this school is a titan!”*

– National Public Radio, Nov. 29, 2007

## ONLINE PROGRAMS

uis.edu | (800) 323-9243 | clasonline@uis.edu

## **Award Winning Online Programs**

In 2007, the University of Illinois at Springfield received the **2007 Excellence in Institution-Wide Online Teaching and Learning Programming Award** from the Sloan Consortium, a group of colleges & universities committed to quality online education.

To take advantage of our excellence, choose from a variety of award winning online programs for both undergraduate & graduate students. All programs are regionally accredited by the Higher Learning Commission of the North Central Association for Colleges & Universities.

## **Small Classes**

Online courses are small so that you can get to know your teachers & advisers as well as the other students in your classes. Learn via the Internet with the same high quality faculty members who teach on campus courses.

## **On Your Time & in Your Own Space**

You are not required to come to the physical UIS campus in Springfield Illinois in order to complete your degree (although you are always welcome, especially at graduations!).

## **Individualized Advising**

Faculty members provide one-to-one advising so you can feel confident that you are on your way to meeting your unique educational goals.

## **Ways to Make A Difference in Your Community**

As an online student you can enroll in service learning & other internship experiences in your own community or participate in study abroad opportunities, completing your coursework from a distance.

## **A University of Illinois Degree at a Competitive Price**

UIS diplomas are the same for both online & on campus students: there are no differences in the diplomas because there are no differences in the courses & degrees! If you live outside of Illinois & are an online major, you can take advantage of UIS' e-tuition rate, much less than out-of-state tuition.

## **First Class Support Services**

Online Program Coordinators will assist you to navigate administrative & academic systems so you are never lost in cyber space! Contact them with questions about applying, registering, or scheduling classes. You can also count on access to a full service technical support staff.

## **Academic Enrichment Opportunities via New Media**

Our virtual campus offers distant students access to a range of academic enrichment experiences, for example, lectures & discussions by nationally known speakers, a student honorary society, & a student research symposium. These types of opportunities are available through the use of new media, including podcasting, live Webcasts, the UIS mobile website, & we are also an iTunes University.

**Join Our Premier Online Campus**  
**Contact an Online Program Coordinator to Learn How**

## What Makes UIS' Online Programs So Much Better Than Others?

**We start with the teaching.** At UIS, we bring in our regular professors—scholarly educators every one of them, who know their subject and know how to communicate it—and train them to use the technology. Learning first...then technology.

**We get you involved.** No sitting in the back row when you're online. No ducking when the professor asks a question. Our professors work hard to keep everyone involved in discussions, not just the outspoken, outgoing students. That's why many of our students say they are actually more involved online than in the classroom.

**We make it personal.** Even online—perhaps especially online—community matters, and we know how to make that happen among your fellow students and your professors. That's why if students do come for graduation, they meet classmates and professors as old friends even though they are meeting face to face for the first time.

### Plan a program that's right for you

#### **Design Your Own Degree with Liberal Studies!**
