4. Please describe the programs or services that are available to veterans, military personnel, and their families.

UIS provides a wide array of programs and services for all students including veterans, military personnel and their families. Services range from academic advising and support to housing, personal counseling, participation in student organizations and activities and many other programs.

Historically, services have been provided through a variety of individual offices. The Counseling center, Career Development Center and other others have all offered services and programs which not only serve veterans directly and also provide valuable training and information to campus staff and faculty. Beginning in the fall of 2009, however, an Office of Veterans Student Affairs has been established and coordinated within the Office of the Associate Dean of Students. The Coordinator of Veterans and Military Personnel Student services works within that office to assist veterans and military personnel and families in obtaining needed services and provides direction and guidance regarding campus services and processes. A newly established Military & Veterans Student Association has also been formed to meet students' social and recreational needs.
