

Process for all Freshmen Applicants

International Transcript Evaluations Providers

Applicants to the University of Illinois at Springfield (UIS) on or after July 1, 2019, that have international academic records must arrange (at their expense) to have their record(s) evaluated by a National Association of Credential Evaluation Services (NACES) member organization. The UIS recommended evaluation service is WES (World Education Services),* but UIS will accept an evaluation from any NACES member.

UIS will require that your evaluation includes certified copies of the documents used to conduct the evaluation. If certified copies of your academic record(s) are **not** included with the evaluation, you will be responsible for requesting that official documents be sent to UIS from each institution attended, along with an English translation (if the records are in a language other than English).

To find a NACES Member, please use the hyperlinks below or refer to <https://www.naces.org/members>
