## National show

BY ANITA STIENSTRA

The Visual Arts Gallery at the University of Illinois Springfield presents an internationally juried exhibition of fine art titled Sustain. It features selections from 13 artists, whose work addresses three issues of sustainability: resource conservation, social justice and economic equity. The exhibit can be viewed weekdays Monday through Thursday. A closing reception is planned as part of the campus' celebration of Earth Day on April 22 from 5:30-8 p.m. in the gallery. Pictured is "The Bitter Pill" by Minneapolis artist Bart Vargas.
