

**University of Illinois Springfield**

Student Government Association Resolution 9 (AY 2013 – 2014)

*Supporting the Purchase of Software at the University of Illinois Springfield*

By Student Trustee Jamaal Hollins and Senator Paige Heiser

WHEREAS, the Student Government Association is vested with the authority to represent the students of the University of Illinois Springfield and serve as the official voice,

WHEREAS, the divisions of Student Affairs and Academic Affairs are looking in to the possibility and feasibility of purchasing software to better enhance the student experience at the University of Illinois Springfield.

WHEREAS, this software would give students the option of producing a co-curricular transcript which would allow them to track their achievements and involvement throughout the course of their education at the University of Illinois Springfield.

WHEREAS, this software would assist the administration and various departments of the University of Illinois Springfield in monitoring and tracking important student data.

WHEREAS, students commit significant work within and outside of the University of Illinois Springfield community that the school simply cannot track currently.

WHEREAS, our two sister campuses of the University of Illinois, Chicago and Champaign-Urbana, already implement the same type of software for their students.

THEREFORE BE IT RESOLVED, that the Student Government Association supports the administration in seeking a software that would not only benefit the University of Illinois Springfield, but the entire student body as well.

THEREFORE IT BE FURTHER RESOLVED, that this resolution be forwarded to the Director of the Volunteer and Civic Engagement Center, the Vice Chancellor for Student Affairs, and the Associate Vice Chancellor for Undergraduate Education.
