

A Look at the Numbers

735,000

Approximate number of annual listeners to the Center's NPR Illinois. NPR Illinois broadcasts in approximately two dozen counties in Central Illinois.

70,000

Number of vehicle crashes annually linked together with hospitalization data by the Illinois Motor Vehicle Data Linkage Project to support local, regional, and statewide highway safety decision-making to decrease deaths, non-fatal injuries, and health care costs resulting from motor vehicle crashes, which will help make Illinois roads safer.

1,400

The number of frontline workers trained through our Alliance for Experiential and Problem Based Learning, who work to build a stronger workforce of those that serve on the frontlines of our keeping our communities safe.

300

Agreements the Center has with public sector entities each year across our various units. These provide the Center with funding from our partners for research, evaluation, policy analysis, training, journalism, media productions, legal aid, internships, staffing needs, and much more.

275

Interns the Center provides for the public sector in Illinois through our Graduate Public Service Internship Program, Illinois Legislative Staff Intern Program, and DPA Fellowship Program.

189

Police cadets and recruits trained on the issue of wrongful convictions by the Illinois Innocence Project in 2022.

40

Research and evaluation projects the CSPL staff, faculty and students worked on last year.

23

Innocent individuals the Illinois Innocence Project has helped exonerate in Illinois. These men and women lost a collective 511 years of their lives at a cost of \$33 million to Illinois taxpayers for their incarceration alone.

20

PSAs produced by our Office of Electronic Media for the Safe2Help Illinois school safety program, helping to raise awareness of 21st-century threats facing school children in Illinois and providing resources for students in crisis.
