Brief History

Our Mission

Meet the Team

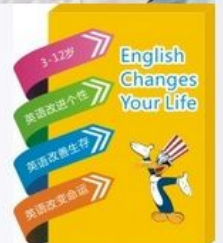

Your position: Echo English Dispatching Center >> About Us

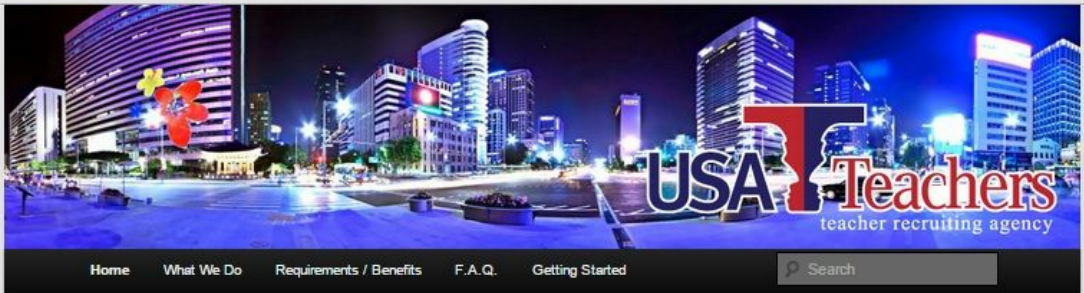

Brief History

Echo English was originally founded under the name 'Jump Start Kids' in July 2007 by Barbara, a Canadian living in Hangzhou. Barbara's initial concept was to create a warm and playful world in which children could play, draw and sing songs alongside native English speaking foreign teachers, enabling them to grasp the English language easily. In this school there would be no arduous studying; only joyful and natural practice which would emulate the methods children use to learn their mother tongue. In 2008 Barbara had to return to Canada for personal reasons and she decided to entrust the school to her likeminded friend, Shirley Jin. In order to highlight the school's emphasis on oral English, Shirley Jin changed the name of the school to Echo English in 2009. Echo English currently has three campuses: Binjiang Campus, Xiaoshan Campus, and Rainbow City Campus. From humble beginnings where the only students at the school were Barbara's own children, Echo English's student body has grown to over a thousand students, all of whom stand testament to the styles and methods of Echo English.

Now through our consistent government recognition year by year as a quality institute providing quality teachers to our students we have been tasked to provide this same quality service to all of China. Our institute is now providing training and service to foreign experts not only in training campuses but throughout the Education sector. Our teachers now encompass training schools, high schools, junior high schools, primary schools, and universities across China.
