

# 2024 Sexual Misconduct Campus Climate Survey

9/26/2024

## Introduction and Background

The University of Illinois – Springfield (UIS) is dedicated to fostering a caring community on our campus. Preventing and remedying sexual misconduct at UIS is essential to a safe environment in which our students can learn and thrive. The University administered the *Sexual Misconduct Campus Climate Survey* in Spring 2024 to better understand students’ experiences of sexual misconduct (which includes sexual or gender-based harassment, stalking, dating/domestic violence, and sexual violence), students’ knowledge of the resources available to them, and perception of the response to incidents of sexual misconduct.

## Survey Background

On August 6, 2021, a bill written by students and supported by survivor advocates in Illinois was signed into law by amending the Preventing Sexual Violence in Higher Education Act. This new law, Public Act 102-0325 (110 ILCS 155/35), mandated all institutions of higher education conduct an annual campus sexual misconduct climate survey to assess students’ experiences, outcomes regarding their experiences, and perceptions of sexual violence and collegiate culture. The law called for the creation of a Task Force on Sexual Misconduct on Campus Climate Surveys to develop the base survey instrument and implementation guidance. The Task Force was charged with creating a “base survey,” which focuses on 13 areas outlined in the statute:

- The number, type, and location of reported and unreported incidents of sexual misconduct.
- Student awareness of institutions’ sexual misconduct policies and procedures.
- Whether the student was referred to victim support services and whether students were provided information on his/her/their rights.
- Student demographic information such as race/ethnicity, gender, sexual orientation, disability status, and immigration status to help identify at-risk groups.
- The perceptions of campus safety and confidence in the higher education institution’s ability to protect students against sexual misconduct.
- Contextual factors of a sexual misconduct incident and any student academic outcomes, such as withdrawing from classes or being placed on academic probation.

## Administration

### *Dates and Population*

UIS administered the survey to students April 2, 2024 to May 14, 2024. The survey was sent to all students enrolled in at least one credit hour in the following academic terms: Spring 2024, Fall 2023, Summer 2023. A total of 5,726 students or former students were invited. Participants were required to have been at least 18 years of age and physically located in the United States while completing the survey (as determined by legal counsel due to international privacy laws).

### *Advertisement and Incentives*

Students were informed of the survey through campus emails from Chancellor Janet L. Gooch. A campus [website](#) was created to respond to questions. Presentations about the survey were given to staff who work directly with students and student groups including Student Government. Digital signage was distributed throughout campus units. Additional announcements were distributed via various campus newsletters, student organizations, and at events.

At the end of the survey, respondents had the option to register for an incentive drawing, including 4 - \$50 Amazon electronic gift cards and 30 - \$10 Amazon electronic gift cards. Contact information for incentives was completed on a form separate from the survey responses to maintain the anonymity of responses.

### Survey Administration

Student privacy and security were the primary concerns when administering the survey instrument. Respondents completed the survey via Qualtrics. No personally identifiable information was retained in the survey responses. Respondents were presented with the required informed consent that included notifying respondents the survey was voluntary, and they could skip any question.

The survey was offered in English only. We utilized a portion of the state’s optional consent module that included Question 19a, c, d, f and Question 20 b, c, d, e. The base survey contained seven questions that were modifiable by the institutions.

- Question 4 – No modification made.
- Question 5 – Added 2024 as an option.
- Question 7 - No modification made.
- Question 9 – We modified “on campus residence hall/dormitory” to “On campus residence hall, “Other on campus housing (apartment, house) to “On campus apartment or townhouse”, “Fraternity or sorority house” to omitted, Off-campus institution -sponsored Apartment /house, to “Off-campus apartment/house, “Other off-campus” to “Other”.
- Questions 18 – We added examples to align with campus services. \_1 (ex. UIS Counseling Center, UIS Health Services, Women’s Center, UIS police, Dean of Students). \_2: (ex. Prairie Center Against Sexual Violence, Sojourn Shelter & Services). \_3: (e.g. National Domestic Violence Hotline) \_4: UIS Title IX Office.
- Question 87 – We modified \_5 “attended a rally or other campus event about sexual misconduct or sexual assault” to “Attended an event, program, or rally about sexual misconduct or sexual assault”, \_6 “Seen posters about sexual misconduct” (e.g., raising awareness, preventing rape, defining sexual misconduct) to “Seen posters or social media posts about sexual misconduct (e.g., raising awareness, preventing rape, defining sexual misconduct)”. \_16 “Completed annual online sexual assault prevention course, Voices for Change”.
- Question 88 – We changed “Student code of conduct or honor code” to \_7 “Student code of conduct” and added “\_8 “Information on the sexual misconduct policy”.

### Acknowledgments

The University of Illinois Springfield would like to thank the University of Illinois System Office for their funding support, which made this project possible. Special thanks to the U of I Sexual Misconduct Survey working group for their collaboration and valuable insights throughout this endeavor. A special mention goes to Dr. Beth Hoag, whose exceptional leadership as the overall project manager has been instrumental in guiding this project to completion.

## Report Overview

The report contains the total number of respondents to each base survey question and the number of respondents that choose each answer option. Per IBHE guidance, only students who complete at least through Question 33 of the base survey, are considered completed and can be used in the reporting and analysis. Additionally, if a survey base question or answer has fewer than 20 responses in a cell we are to report “NR” for Not Reported to protect student privacy and anonymity.

## Results

Results include 562 total responses that answered a question at Q33 or later.
