Francesca Butler	ENS	Fbutl2@uis.edu	6185506309

Organization/Affiliation:

Project Information:

Please provide a brief description of the project. What are the goals and the desired outcomes of the project?
The project would ensure the proper labeling of Recycling Dumpsters on campus

Please describe why this project matters to you and how it relates to sustainability.

This project matters because students still do not recognize the difference in recycling and trash dumpsters.
This is the responsibility of the campus because these dumpsters are not labeled.

Where will the project be located?

The project will be located on all 6 residential campus dumpsters

Please provide a brief summary of how students will be involved in or affected by the project:

Students will be involved at least weekly when they take out their recycling.

Please provide a brief summary of the project timeline (Most approved projects are proposed in the Fall and implemented in the Spring)

We will purchase the magnets and when they arrive place them on the dumpsters. They have a 3-day turn around after ordering.

Please provide a brief itemized breakdown of the funds needed.

We will need 92.40 to fund all 6 magnets

Do you have any suggestions for how we could measure the success of this project?

We can measure the success of the project by mapping contamination rates before and after relabeling.
