Race/Ethnicity	Total Enrolled	Subset of Program Completers
Two or more races	<div>1</div>	<div>0</div>
No Race/Ethnicity Reported	<div>0</div>	<div>0</div>

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2018-19.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. [\(§205\(b\)\(1\)\(H\)\)](#)

What are CIP Codes?

☐ No teachers prepared in academic year 2018-19

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2018-19. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. [\(\\$205\(b\)\(1\)\(H\)\)](#)

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

What are CIP Codes?

Do participants earn a degree upon completion of the program?

Respond to the following assurances. Note: Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. [\(§205\(a\)\(1\)\(A\)\(iii\); §206\(b\)\)](#)

Program Assurances

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.
- ☒ Yes

☐ No
2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.
- ☒ Yes

☐ No
3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.
- ☐ Yes

☐ No

☒ Program does not prepare special education teachers
4. Prospective general education teachers are prepared to provide instruction to students with disabilities.
- ☒ Yes

☐ No
5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.
- ☒ Yes

☐ No
6. Prospective general education teachers are prepared to provide instruction to students from low-income families.
- ☒ Yes

☐ No
7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.
- ☒ Yes

☐ No
8. Describe your institution’s most successful strategies in meeting the assurances listed above:

Our Council on Professional Education is made up of faculty, staff, students, and practitioners from the community, all of whom have input into the needs of local schools and new teachers. Almost all of our courses include practicing teachers and administrators from the area, providing candidates with grounded “real world” teaching perspectives. All professional course work is developed around the 2013 Illinois Teaching Standards and the appropriate Specialty Professional Area (SPA) standards. Course work includes instruction on the Common Core State Standards, teaching students with exceptionalities, and working with students who represent a wide range of socioeconomic circumstances, cultures, languages, races, family structures, and geographic locations. Teacher candidates at UIS complete multiple field experiences in schools before entering their student teaching experiences, so they have a wide range of experience with students and teachers. The program requires that at least one preclinical (before student teaching) experience be in a building that is considered diverse ethnically or socioeconomically per the Illinois school report card.

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

Report Progress on Last Year's Goal (2018-19)

1. Did your program prepare teachers in mathematics in 2018-19?

If no, leave remaining questions for 2018-19 blank (or [clear responses already entered](#)).

- ☒ Yes
- ☐ No

2. Describe your goal.

To have at least two math completers. We had five completers last year.

3. Did your program meet the goal?

- ☒ Yes
- ☐ No

4. Description of strategies used to achieve goal, if applicable:

We continue to work with the Math Department to encourage recruitment of math majors interested in teaching. Our new dual credit program with local high schools may also help us identify and recruit students who are interested in teaching math. We will make sure that students interested in math have access to university and department resources to help them with any deficits that they encounter.

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

We will have a new faculty member with a mathematics background join the faculty in the fall. This addition will further enhance the strength of our program and facilitate communication with the math department.

6. Provide any additional comments, exceptions and explanations below:

Review Current Year's Goal (2019-20)

7. Is your program preparing teachers in mathematics in 2019-20? If no, leave the next question blank.

- ☒ Yes
☐ No

8. Describe your goal.

To have at least two math completers. At present, we have 10 New and Active candidates in the math program. We have hired a new faculty member with math expertise who will join our department in August 2020 and will continue to work with the math department to ensure that teacher education candidates receive exceptional math preparation.

Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact Westat's Title II Support Center and your testing company representative.

Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. [\(\\$205\(a\)\(1\)\(F\)\)](#)

Does your program prepare teachers to:

a. integrate technology effectively into curricula and instruction

- ☒ Yes
- ☐ No

b. use technology effectively to collect data to improve teaching and learning

- ☒ Yes
- ☐ No

c. use technology effectively to manage data to improve teaching and learning

- ☒ Yes

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

All candidates are required to take a course in "Teaching With Technology". In addition, all candidates take coursework in curriculum, planning and assessment. All core courses have an online component available housed within our LMS for use by the instructor. Methods courses require the use of technology in projects and all candidates are required to prepare an online Candidate Work Sample as a capstone project. Teacher candidates are required to successfully complete the edTPA performance assessment in order to be recommended for licensure. As part of the edTPA, candidates are required to use technology to organize, report, and interpret data on student progress. Candidates are also evaluated on their ability to incorporate and use technology during their preclinical experiences as well as their student teaching.

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

All candidates complete or have completed a degree in a major content area. The elementary education program is offered only as a double major. Candidates in secondary education complete a degree in a content area and a minor in secondary education. Candidates who have previously earned degrees complete the same course sequence as the elementary major or the secondary minor that corresponds to their area of endorsement on the Illinois Professional Educator License.
