Re: Review of CBM's List of Accepted Journals

During this academic year, apart from evaluating petitions to include journals in the CBM's List of Accepted Journals (the List), the Journal Review Subcommittee (JRS) evaluated and revised the List to keep it updated. To review and revise the List, the JRS has done the following:

1. Removing the journals that are already in the latest ABDC ranking list.
2. Adding the journals that have been accepted and ranked through filing a petition/appeal to JRS.

Accordingly, the JRS would like to release the following list as the 2023 CBM's List of Accepted Journals. Please note that this list contains the journals *in addition to* the ABDC and ABS journal lists.

We wish all CBM faculty the best in their research endeavors.
