

Denis Edgar-Nevill

He was born in 1957 in Martock, Somerset, England. He graduated in Computer Science in 1979 from Coventry University and went onto complete his research in Computer Science is the study of Software Metrics and Software Quality Assurance. Denis held academic posts at four UK universities before taking up his current post as Head of the Department of Computing at Canterbury Christ Church University in 2002. His research has included more than 150 journal, national/international conference papers, books/book chapters including, more recently, computer forensics. This work has included involvement in 15 UK and European Union funded research projects. He became a Chartered IT Professional in 2004 and was elected to be a Fellow of the British Computer Society (BCS) in 2005 and also a member of 'BCS Elite' group. He chairs the CFET (International Conference on Cybercrime Forensics Education and Training) conferences held annually at Canterbury Christ Church University; the International Advisory Group for these conferences includes academic researchers and senior law enforcement officers from around the world.
