

BIOGRAPHY  
**Steven K. Miller - Data Solutions Manager**  
**Verizon Wireless**

---

Mr. Miller concluded his 30 year career in law enforcement in December 2002 when he retired from the Illinois State Police as the Administrator of the nation's largest statewide criminal justice data wireline network called LEADS. During Mr. Miller's tenure with the ISP, he was responsible for the administration of the Department's statewide voice communications system, including 21 manned State Police District Communications Centers. In January 1996, Mr. Miller assumed an additional role as the ISP wireless data administrator playing a lead role in defining the vision and strategy for what would become known as the Illinois Wireless Information Network (IWIN), the nations largest public safety wireless data network.

Mr. Miller also served as Chairperson of the FBI Criminal Justice Information Systems Working Group where he was intimately involved at the Federal and state level in developing a national information technology response to criminal justice issues, including Homeland Security.

Mr. Miller is the author of several articles that have appeared in law enforcement and public safety publications and is responsible for the development of many innovative telecommunications policies and procedures utilized by public safety agencies throughout the nation.

Mr. Miller is currently in his fifth year with Verizon Wireless as Data Solutions Manager for the Midwest Area. Mr. Miller continues to be actively involved in the planning of new emerging technologies involving information sharing and the implementation of fourth generation (4G) high speed wireless data. Mr. Miller is a public safety expert concerning the use of wireless continuity of operations technologies in times of emergencies. Mr. Miller graduated from the University of Illinois with highest honors where he holds a B.A. in criminal justice administration and is also a graduate of the Illinois State Police Command College.
