

Unexplained absences
from school or classes?

Bragging about winnings?

Talking about gambling?

Unusual interest in
sports box scores?

Big increase in
credit card debt?

**Just having fun...
or is it a
gambling problem?**

KNOW THE ODDS...MOST COLLEGE STUDENTS DO.

EDUCATION
CENTER
for alcohol, other drug
& violence prevention

EASTERN
ILLINOIS
UNIVERSITY

It is important to understand when fun turns into a problem. As many as 1 in 20 college students report significant negative life consequences like losing friends, distance from family, interruption in college progress and credit card debt from gambling. Find help for yourself or a friend at your campus counseling center or visit the Illinois Higher Education Center for Alcohol, Other Drug and Violence Prevention's website at www.collegeaodvprevention.org for important information.
