## **I. Purpose**

The purpose of this procedure is to establish the conditions under which the university permits individuals and groups (each an "applicant") to reserve and temporarily use the University of Illinois Springfield (UIS) Property for an activity or event. This procedure does not govern the assignment of instructional space for class scheduling but does govern instructional space used for non-classroom purposes. Any fully executed agreement will govern the use of the space for that particular agreement. This procedure follows and incorporates all applicable UIS Policies, Procedures, and Handbooks, including but not limited to the University of Illinois Springfield Expressive Activity Policy and the General Use of and Access to the University of Illinois Springfield Property Policy.

## **II. Scope**

This procedure applies to any University Community Member using University of Illinois Springfield (UIS) Property.

## **III. Definitions**

UIS Event Liaison is the individual(s) responsible for planning the event.

Facility Use Agreement is a formal agreement or contract between a university and an individual, group, or organization that outlines the terms and conditions for using university property for specific activities or events. The agreement ensures the appropriate use of university property and that all parties understand their obligations. Agreement templates can be found on the [Facilities Scheduling website](#).

Risk Assessment evaluates a Special Event's management, operational, and technical safety and security needs using an objective review of the event and its factors. The university may require additional controls such as security, extra security measures, insurance, and additional mitigation measures.

University Community Members means faculty, staff, students, registered student organizations, affiliates, or visitors.

University of Illinois Springfield (UIS) Property means all buildings, grounds, and other internal and external spaces owned, controlled, or leased by the university.

Venue Manager is the university officer or official appointed by the Chancellor or the Chancellor's designee to manage the use of venues for an activity or event and make decisions about using specific university property. Facilities and Services will manage the space with appropriate stakeholders if there isn't an appointed Venue Manager for the particular university property.

UIS Event Liaison is the Student Life staff member assigned to each RSO.
