1. Nowlan, Gove and Winkel, *Illinois Politics: A Citizen's Guide*
2. Nowlan and Johnson, *Fixing Illinois: Politics and Policy in the Prairie State*
3. Mooney and Van-Dyke Brown, *Lobbying Illinois*

ATTENDANCE

Attendance (and active participation) for all seminars is **MANDATORY**. Work related absences, which are rare, will be accommodated. Interns who otherwise miss part or all of a seminar will be obligated to make up for their absence. This will be arranged with the instructor.

GRADES

The course grade will be calculated as follows: 35 % each for papers 1 and 3; 20 % for paper 2; 10 % on attendance and participation.

WRITTEN ASSIGNMENTS

There are three written assignments for the seminar:

1. Ever since the General Assembly in 2011 completed the task of redistricting its legislative and congressional districts, there has been serious discussion and much controversy as to how the process should be changed, and even is it should be changed at all, as we close in on the next round of redistricting in 2021 (just less than two years from now!).

Do the following: review how well the process worked, or didn't work, in the 2011 session, analyzing the role of the major players in the General Assembly as well as outside groups. In addition, review the two major efforts to place a constitutional amendment on the ballot which would have changed the process. Who were the movers and shakers behind this movement, why did both ultimately fail? Indicate your opinion on the substance of the proposals.

SUGGESTED LENGTH – 6 PAGES – DUE 5PM SEPTEMBER 26

2. Handicap any competitive statewide race for 2020. This should include a review of the candidates of both major parties, and consider the impact of any third party candidates. Who will be elected, by what margin and why? Be thoughtful, reasoned and objective in your analysis.

SUGGESTED LENGTH – 4 PAGES – DUE 5PM OCTOBER 17

3. In Nowlan and Johnson's book, chapters 2 through 7 address six major policy areas of significant concern: 1) taxing and spending, 2) education, 3) health care and human services, 4) infrastructure, 5) economic development and 6) reengineering state government. Your assignment is to choose one of the six and do the following: a) outline/summarize the problem(s) as presented by the authors, b) critique their proposals for change and c) indicate whether their proposals have a realistic chance of gaining approval, given the political structure and climate in Illinois.

SUGGESTED LENGTH – 6 PAGES – DUE 5PM OCTOBER 31
