About Our Data Collection

The Outcomes Survey A GRADLEADERS BRAND

At UIS, we are using **The Outcomes Survey** powered by GradLeaders to conduct our First Destination Survey to gain knowledge about what activities students are engaging in after graduation from college.

Graduating students receive emails from the Career Development Center through The Outcomes Survey® platform starting in the weeks immediately preceding their graduation date asking for the survey to be completed. Graduates can update their survey response for up to a year after graduation, and graduates will receive periodic reminders about the opportunity to update their survey response.

Graduates who “secured a destination” included those who are employed (including military service), enrolled in a continuing education program, or serving in a volunteer organization. Other possible statuses for graduates included seeking employment, seeking education, and other (as defined by the graduate). Graduates were invited to select multiple statuses to best represent their post-graduation activities. They were also asked to select one primary status. Unless otherwise noted, primary status is used to group respondents throughout the report. **Thank you to all the graduates who have provided feedback about post-graduation plans via The Outcomes Survey!**
