

UIS Space Allocation Committee Request Form

The UIS Space Allocation Committee (SAC) reviews all requests for reallocation of physical space located in all University facilities unless prohibited by contract or funding source obligations, policy or statute. This includes reassignment of space from one unit to another or space that would involve remodeling/construction. In addition, the SAC will review major changes in use of space (for example, changing a conference/meeting space or classroom to offices).

The committee will not review requests for moves of personnel within a department's existing space, such as reassignment of offices within the same department/center or assignment of space for special events.
