

Undergraduate Student Tuition Differentials

Last Updated: April 10, 2025

Differential tuition has been implemented for the following select undergraduate programs to enrich the educational experience and maintain the high-quality academic programming students have come to expect from UIS:

College of Health, Science, and Technology:

Differential tuition supports the additional costs associated with these programs, such as procurement of lab equipment, specimens, computers and software for teaching labs, maintenance of instrumentation, and technical staff to maintain and run the labs.
