CYBER DEFENSE AND DISASTER RECOVERY IN A PANDEMIC CRISIS

The Cyber Defense and Disaster Recovery Conference is a one-day program addressing the critical issue of disaster recovery. This year's theme is a pandemic crisis. Attendees participate in a simulated pandemic tabletop exercise.

PROGRAM: The Cyber Defense and Disaster Recovery Conference will address the impact of high absenteeism in the event of a cross sector pandemic crisis. What happens when a large number of employees don't show up for work due to illness, caring for family members or quarantine? How can industry leaders plan for cyber attacks that might occur when the workplace is vulnerable? How will national infrastructures protect digital assets with a 60% projected absentee rate?

SPONSORS:
Computer Science Department, University of Illinois at Springfield
Center for Systems Security & Information Assurance
InfraGard Members Alliance, Springfield, Illinois
